

# ICY HERITAGE

*The Historic Sites of the Ross Sea region*

## ICY HERITAGE

*The historic sites of the Ross Sea region*

Much has been written in the past of the expeditions of the so-called 'heroic-era' but this book is different.

In it Antarctic historian David Harrowfield, takes the reader on an intriguing visit to each of the 34 sites recorded by the Antarctic Heritage Trust in the Ross Sea region. An informed commentary and numerous photographs provide a new perspective of the events which make these sites so important.

Inside are 100 pages of fascinating narrative extensively illustrated with black and white, and colour photographs. Many are published for the first time.

Written to appeal to the general reader, *Icy Heritage* provides an authoritative reference to the sites and the historic events associated with them.

Published as a soft cover book, a limited number of hard cover copies are available.

*A unique insight to the human heritage of Antarctica*
